

# Enprocal<sup>®</sup> REPAIR

BY

## Nutritional Support During Wound Healing

Enprocal<sup>®</sup> Repair is a food for special medical purpose developed to assist wound healing. Enprocal<sup>®</sup> Repair is fortified with L-Arginine, an amino acid which has been suggested to improve rates of wound recovery.

### Enprocal<sup>®</sup> Repair Features

- ✔ Contains energy and protein. Inadequate energy & protein are proven independent risk factors for pressure ulcer progression\*.
- ✔ Fortified with L-Arginine (2.3g per 17.5g sachet) to provide nutritional support during wound healing.
- ✔ Has high levels of key micronutrients, including calcium, zinc, vitamins C, D, A, B1, B2, B12 and folate, low intakes of which have been associated with impaired wound healing.
- ✔ Is sweetened but unflavoured
- ✔ Is Gluten Free

### How to use Enprocal<sup>®</sup> Repair

Shake, whisk or blend one sachet of Enprocal<sup>®</sup> Repair with 150ml of your favourite juice or flavoured skim milk and serve chilled.

### L-Arginine

L-Arginine is a non-essential amino acid which in times of stress can become conditionally essential. L-Arginine is a substrate for wound healing and supplemental L-Arginine has been suggested to aid wound the healing process.
